### Groups

Each line on the Command Card forms a separate group. Total groups: 4. The main infantry group elements are deployed over a considerable distance. They are a single group, owing to the land line communications. For reaction tests more distant elements won't be directly aware of adverse results, so will be unaffected.

### Communications nets

1. Land line and radio, long range, 500cm (10km). Kampfgruppe HQ, 5th Company HQ, Panzer Assault Gun Battalion HQ, Panzer Artillery Battalion FOO
2. Land line only, each Panzergrenadier element (original position only)
3. Land line and radio, short range, 15cm (300m). StuG elements
4. Land line and radio long range, 500cm (10km). FOO to Wespe
